TABLES

BIG WHEEL

SPIN TO WIN

The Big Wheel is great fun, simple and a fast game. The wheel is divided into sections, and each section is represented by a symbol. The odds for the sections are displayed on the wheel and on the table, and range from even money to 47 to 1.

How to Play

- 1 Place a bet on the symbol that you feel will be lucky on the next spin.
- 2 The Dealer calls “No More Bets” and spins the wheel.
- 3 When the wheel has finished spinning and lands on one of the symbols, the Dealer or Game Supervisor announces the winning result.
- 4 The Dealer will remove all losing bets and all winning bets are paid at the odds displayed.
- 5 Should the Indicator stop on the divider between two compartments the Dealer shall announce a “no-spin”. Bets may remain, be changed or removed.

Chips

Big Wheel can be played with either cash chips or colour chips. Chips can only be purchased at the tables. Colour chips are unique to the table you are playing on. When you purchase colour chips you are allocated a different colour to anyone else playing on the table. Only one player is permitted for each colour. Colour chips are most frequently purchased at the table minimum however they may be purchased at higher denominations if desired. Colour chips *must* be converted into cash chips when you finish playing, or move to another table. Cash chips can be used at any gaming table throughout the Casino.

For further information, please ask any of our friendly staff at the Big Wheel table.
